

## LCD Projectors

Specifications		
Model name	CP-WX5506M	CP-WU5506M
Display system	3LCD	
Display device	Size of effective display area	0,64" x 3, aspect ratio 16 : 10
	Number of pixels	1,280 horizontal x 800 vertical
Lens	Zoom	Manual (x1.6)
	Focus	Manual
	Lens shift	Manual (V : 0 ~ +50%, H : ±4.6%)
Light source	300W (high pressure mercury lamp)	
Screen size	30 - 300 inch	
Light output (Brightness)*1	5,400lm	5,200lm
Contrast ratio (full white / full black)*2	10,000 : 1	
Speaker	16W x 1 (mono)	
Displayable scanning frequency	Horizontal	31.5 ~ 106 kHz
	Vertical	56 ~ 120 Hz
Terminals	COMPUTER IN	Mini D-sub 15-pin connector x 1
	MONITOR OUT	Mini-D-sub 15-pin connector x 1
	VIDEO	RCA connector x 1
	HDBaseT	RJ-45 connector x 1
	HDMI IN	HDMI connector x 2(HDCP compliant) *HDMI IN 1 supports MHL input
	HDMI OUT	HDMI connector x 1 (HDCP compliant)
	AUDIO IN	3.5mm (stereo) mini connector x 1 / 2 RCA connector (L, R) x 1
	AUDIO OUT	3.5mm (stereo) mini connector x 1
	CONTROL IN (RS-232C)	D-sub 9-pin connector x 1
	LAN	RJ-45 connector x 1
	WIRELESS	USB type A x 1 (Used for wireless adapter)
	REMOTE CONTROL IN	3.5mm (stereo) mini connector x 1
	REMOTE CONTROL OUT	3.5mm (stereo) mini connector x 1
	USB TYPE A	USB type A x 1 (DC5V 1A)
	Operating temperature	0 - 40°C * (32 - 104°F) at altitude of 0 - 1,600m (0 - 5,249ft) 0 - 35°C (32 - 95°F) at altitude of 1,600 - 3,048m (5,249 - 10,000ft) * When the ambient temperature exceeds 35°C, the brightness of the lamp is reduced automatically.
Power requirements	AC100 - 120V (50Hz / 60Hz), 4.8A AC220 - 240V (50Hz / 60Hz), 2.4A	
Power consumption	AC100 - 120V : 470W AC220 - 240V : 450W	
Standby mode power consumption	Less than 0.5W at saving mode	
Standard outside dimensions (WxHxD)	466mm x 138mm x 337mm (18.3" x 5.4" x 13.3")	466mm x 138mm x 339mm (18.3" x 5.4" x 13.3")
Weight	Approx. 6.9kg (15.2lbs.)	Approx. 7.2kg (15.9lbs.)
Accessories	Remote control with batteries, USB Wireless Adapter(USB-WL-5G)*3, Power cord, Computer cable, Lens cover, Terminal cover, User's manual (Book, CD-ROM), Security label, Hook metal, Screw, Cable tie, HDMI cable holder	
Optional parts	Lamp	DT01931
	Filter set	UX41161
	Mounting accessories	HAS-9110 (Bracket for fixing mount), HAS-104S (Slim adapter for fixing mount), HAS-204L (Standard adapter for fixing mount), HAS-304H (Long adapter for fixing mount)
Remote Control (with the wired remote terminal)	RC-R104	

\*1 When PICTURE MODE is set to DYNAMIC, ACTIVE IRIS is set to OFF, and lens shift position is center (V/H:0%).  
\*2 When PICTURE MODE is set to DYNAMIC, ACTIVE IRIS is set to HIGH, and lens shift position is center (V/H:0%).  
\*3 The adapter supports IEEE802.11a/b/g/n/ac.

### Environment

- **Compliance with EU Directive RoHS\*1**
- **Reduction of resin usage in production**  
Use of hot runners in molds for making upper housing in order to reduce mill ends.
- **Reduction of CO<sub>2</sub> emissions**  
Carton volume has been cut down to 76%\*2, reducing CO<sub>2</sub> emissions during transport.
- **Power saving mode engaged during standby**
- **Eco mode**  
Eco mode provides power saving.

\*1 RoHS is the acronym of "Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment".  
\*2 Compared to Hitachi CP-X8150J projector on the basis of one carton box.

—Design and specifications are subject to change without notice.

- The projected images and comparison photos in this catalog are simulations. • LCD panels, polarizers and other optical components and cooling fans may need replacement after prolonged usage. For more details, please consult a Hitachi sales representative. • Do not use in places where there is a lot of water, dampness, steam, dust, soot or tobacco smoke. This may result in fire or malfunction. • Optical components (lamp, LCD panel, polarizing plate, PBS [polarizer beam splitter]) have limited service lives. They must be repaired or replaced if they are used for a long period of time. • These projectors use a mercury lamp with high internal pressure. Because of its properties, this lamp may burst with a loud noise or burn out if struck or after it has been used for a period of time. The time until it bursts or burns out varies greatly according to differences between lamps and usage conditions. Turning the lamp's power on and off frequently shortens its service life. • Optical components other than the lamp: If the projector is used for six hours or more per day, they may need to be replaced in less than a year. • LCD panel: If the projector is used continuously for six hours or more, its replacement cycle may be shortened. • Do not turn projector on again for ten minutes after shutdown. Neglect can shorten the lifetime of the lamp. During use and immediately after use, do not touch anywhere near the lamp and the vents as these parts are extremely hot.

\* Lens shift position : (V)+50%, (H)0%

Projectors support your smart meeting by wirelessly mirroring high quality contents from your mobile devices.

## Wireless Network Functions Complete with High Quality and High Security

Hitachi's wireless projectors can project high quality images. Still images, documents, video, and audio are smoothly transmitted from your device. In addition, the projectors have high security capabilities such as MAC Address Filtering and SSID Stealth.

## Network

### Screen Mirroring

Capable of wirelessly projecting images including photos, videos, or web pages from Miracast®-compatible devices.

\*Projection may be unavailable depending on the device or content.

### Wireless Dual Band Support

Provides a stable wireless network environment by supporting wireless dual band (2.4GHz/5GHz).

## Various Network Projection Modes

Network projection supports the Single display and Multi display. In addition, you can manage various meetings by supporting the moderator control mode. Connection methods of your device and projector have a Miracast connection or Wi-Fi connection.

### Single Display Projection

Mirror your device's screen on the projector screen.

### Multi Display Projection

You can split the screen into 4 parts and simultaneously project up to 4 smartphone, tablet or PCs.

### Moderator Control Projection

Moderator decides who can display content (up to 50\*1 participants supported).

\*1 Miracast connection is up to 5 participants supported.  
\* Use the projector in infrastructure mode with multiple access points. The projector may not operate correctly depending on the environment it is installed or network system.

## LiveViewer Pro Applications

LiveViewer Pro is an application that projects screen mirroring or a variety of contents from your devices onto these projectors by transferring them through a wireless LAN (Wi-Fi).

- LiveViewer Pro for Windows/macOS : Screen Mirroring, Projector Control, Single/Multi Display Projection, Moderator Control Mode
- LiveViewer Pro for iOS/Android : Movie/Music Streaming, Picture/Document/Web/Document Camera Projection, Projector Control, Single/Multi Display Projection, Moderator Control Mode
- These projectors are not compatible with previous application software "LiveViewer" and "Projector Quick Connection".

## Projector Web Control

Our these projectors are equipped with HTML5 based WEB CONTROL that allows you to monitor and control the projector through a network from a smartphone, tablet or PC.

Projector Web Control has the design with consideration of the Color Universal Design, authenticated by the Color Universal Design Organization (Japan), to make images easier to see for more people, regardless of differences in color vision.  
CUDO home page : [http://www2.cudo.jp/wp/?page\\_id=1936](http://www2.cudo.jp/wp/?page_id=1936)

## LINE UP

\* Local availability may be limited.

## Picture Quality

### ACCENTUALIZER and HDCR

ACCENTUALIZER makes pictures look more real by enhancing shade, sharpness, and gloss, to make pictures clearer. The HDCR function corrects blurred images caused by room lighting or outside light sources and creates an effect similar to increasing contrast resulting in clear images even in bright rooms.

### IMAGE OPTIMIZER

Equipped with IMAGE OPTIMIZER, Hitachi's original function that maintains visibility of an image through automatic image correction in accordance with lamp consumption.

\* This function may not work properly when HDCR/ACCENTUALIZER is ON.

## Advanced Installation

### Instant Stack

Instant Stack lets you place one projector on top of another to project the same image from both onto a screen for added brightness. Overlaying the image is made easier with built-in tools including RS-232C control, Perfect Fit, Lens Shift, test pattern, and stacking alignment peg holes.

\* When stacking projectors, there are various precautions and function limitations you should be aware of. Please ask your dealer for details.

### Dual mode

Turns on the projectors at the same time.

### Alternate mode

Turns on the projectors alternately.

### Backup function

When ALTERNATE is selected and an error occurs on one projector in operation, causing the lamp to turn off, the other projector in standby will automatically start to operate.

### Edge Blending & Warping

The multiple projectors allow to project one image on a huge curved screen by using the edge blending and the geometry correction functions\*2 simultaneously.

\*2 Additional equipment may be required for this feature.

## 1.7x Zoom\*3 lens, Lens shift

Featuring a powerful 1.7x manual zoom lens\*3, the projectors allow for a greater range of installation possibilities. Manually shift the lens horizontally and vertically, to position the image on the screen without causing keystone distortion.

\*3 1.6x manual zoom lens for CP-WX5506M

### Lens shift area (at ceiling mount position)

\*4 0.044 screen to left or right (Total 1.088 screen) for CP-WU5506M

## Other functions

- Direct Power On/Off · Perfect fit · PbyP / PinP · DICOM® simulation mode
- Easy Scheduling Setting · Wired Remote & Remote ID (Option) · Seamless Design
- HDMI In/Out · MHL® connectivity · Hybrid Filter · Picture Position · Multi Projector
